# BRUSHES

"The Genuine Costello Quality Brand"

## DUTCH BRUSH PATTERN

So constructed  
as to hold the  
maximum quanti-  
ty of water. Will  
not leak.

Guaranteed the  
best quality Grey  
Russian Bristle.  
Each row of bristle  
vulcanized in hard  
rubber. Will not  
shed or crack.

**Pure Grey Russian Bristle—Vulcanized in Hard Rubber**

Many years ago the "Dutch" pattern, as it is universally called, came into favor in some localities as a Kalsomine Brush—and later adopted by many paper hangers as a paste brush. In recent years its sale has become quite extensive among plasterers.

We offer this style for your consideration—backed with our guarantee of quality. Block is  $2\frac{1}{4} \times 8$  inches, length of bristle is  $4\frac{3}{4}$  inches.

**Style 80P.....Price Each \$6.75**

## BRUSHES

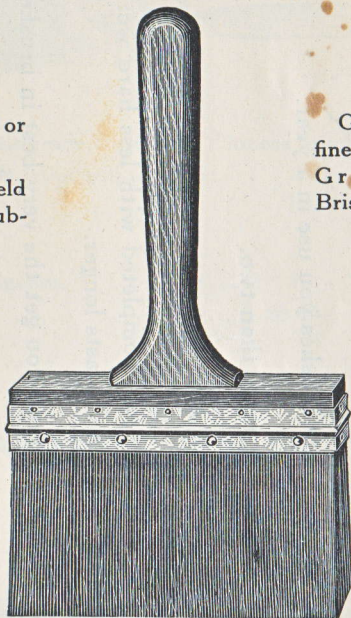

"The Genuine Costello Quality Brand"

### SEMI-DUTCH PATTERN

Will not shed or crack.

Each row held firmly in hard rubber.

Guaranteed the finest quality pure Grey Russian Bristle.

### Vulcanized in Rubber.

A recent development introduced some five or six years ago by the paint and varnish brush manufacturers. First used by the painters for use in Kalsomine and flat color work.—Recently used by some plasterers who desired a Dutch Pattern Brush not as thick as the original Dutch Pattern shown on opposite page. Block is  $1\frac{5}{8}$ x8 inches, length of bristle is  $4\frac{1}{4}$  inches.

Style 81P.....Price Each \$5.75

## READ THIS PLEASE

Stop and reflect a minute on how many brushes you use in a year.

Not many—perhaps one—at most not more than two.

Then why not the best—it's easier to work with the best—and the work is so much cleaner.

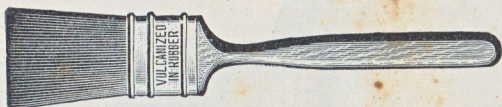

To use the best brush means a better job, completed with less hard work. More than that, the best brush is the cheapest—because it lasts longer.

When you buy the Costello Quality Brand you get the very best in brushes. They have stood the test of many years.
